MRS. THAW AND HER SON STILL DISAGREE

Mother Determined to Have
Commission Inquire Into
His Sanity

BUT PRISONER REJECTS PLAN

JEROME SAYS THAW MUST BE TRIED
OR GO TO AN ASYLUM

Commission Can Only Inquire Into His
Present Mental Condition—
Day's Developments.

New York, July 19.—When the writ is argued in the Supreme court tomorrow to show cause why Former Judge Olcott's law firm does not turn over to Clifford W. Hartridge, newly appointed counsel for Harry Thaw, all the papers in the case, the lines of difference that have arisen between Thaw, his mother, Mrs. Wm. Thaw, and counsel over the nature of the defense will be made plain. Thaw this morning was just as determined as ever that he should go before the jury as a sane man and fight for his liberty. His mother is equally determined that a commission should be appointed to inquire into his sanity and has re-engaged Olcott's firm to conduct the case.

Mrs. Thaw will see her son today and plead with him to consent to the submission of an insanity plea. In the event of Thaw's final refusal, Mrs. Thaw as a mother and relative, would have the right to ask for the appointment of a commission. Neither Thaw nor Hartridge could prevent this move, though with the aid of District Attorney Jerome, it would very likely be successfully blocked.

When Thaw learned definitely yesterday that there was no doubt that his mother had re-engaged Olcott and that it was still the plan to have him declared insane, he sent at once for his lawyer and asked him what could be done. Hartridge obtained from Justice Blanchard, in the Supreme court, an order directing the firm of Black, Olcott, Gruber & Bonyne to show cause why it should not turn over the papers in the Thaw case to Hartridge. It appears that Olcott has failed to turn over all papers in the case, though he was dismissed by Thaw as counsel. Mrs. Thaw and her lawyers have had no communication with Hartridge and have ignored him entirely. It is said that until Olcott has been paid for his services he has a lien on the papers in his possession. It is not known whether Thaw has tried to settle the bill with his lawyers whom he dismissed. Jerome is still in the south, where he is reported as staying until he has seen the moving papers for the appointment of a commission. He would not say what the attitude of his office was. This much Jerome did say, and that was that Thaw must stand trial or go to an insane asylum. He said a commission can only pass upon the mental condition of a prisoner at the present time and has nothing to do with the state of mind of the prisoner at the time the murder was committed. Should a commission find Thaw insane he will be sent to the Mattewan state asylum, but in the event of his recovery he would have to stand trial. Jerome will not return until August 1, so Olcott will not apply to a justice of the Supreme court for the appointment of a commission until after that time.

Mrs. Harry Thaw visited her husband in the Tombs this morning, arriving at the prison about 10:45. She drove to the Tombs from the Hotel Lorraine in an electric hansom and wore the original brown costume in which all her earlier visits to the prisoner were made.

When she was ushered upstairs, Thaw and his wife at once engaged in an earnest conversation and it was evident they had many things to discuss, making it likely that Mrs. Thaw would stay the full limit of the time allowed her. Before going upstairs, the young woman declined to make any statement or to say whether or not she expected to see her mother-in-law today.

Prior to the visit of Mrs. Evelyn Nesbit Thaw, Lawyer Clifford Hartridge called at the Tombs and held a consultation lasting fifteen minutes with his client.

New York, July 19.—The breach between Harry K. Thaw, accused of the murder of Stanford White, and his mother, Mrs. William Thaw, of Pittsburg, arising from difference of opinion as to the character of the defense to be made, is wider than ever.

Following quickly upon a conference of two hours with Thaw in the Tombs, after the mother had twice during the day endeavored to gain the boy's consent to the re-employment of the law firm of Black, Olcott, Gruber and Bonyne, and to consent to a plea of insanity, Clifford W. Hartridge, Thaw's personal counsel, obtained from Justice Blanchard, in special term of the Supreme court, an order directing Judge Olcott's firm to show cause next Friday why they should not turn over to Hartridge all the papers in Thaw's case. Mr. Hartridge based his motion on a petition signed by Thaw which was placed on record in connection with the proceedings. This move was a distinct surprise, being a contradiction of reports which had gained wide circulation earlier in the day to the effect that Thaw had consented to his mother's plan of action. The rumor that the young man had at last bowed to his mother's will undoubtedly had its origin in the fact that Mrs. Wm. Thaw and Mrs. Harry Thaw, who were in conference with Thaw at the same time, emerged from the prison arm in arm. It was the first time they had been seen together. Thaw's wife has all along supported him in his demands for a trial on the issues of the case and has opposed the insanity plea. She has thus been arrayed against the elder Mrs. Thaw, who seems to feel that the only hope of saving her son from death in the electric chair is to depend upon a defense of insanity. This plea would avoid further publicity and ignominy of a trial and has been insistently urged upon the prisoner, who, however, apparently remains obdurate.

BOOMING MITCHELL FOR VICE PRESIDENT

Head of Miners' Organization Declines to Discuss Report from Wilkesbarre.

Wilkesbarre, July 19.—Announcement is today made of a plan to nominate John Mitchell, the president of the United Mine Workers, as vice president on the Democratic ticket, providing Bryan is the selection of the party for president. Mr. Mitchell in Carbondale, declines to discuss the report or intimate whether or not it would be pleasing to him to have his friends boom for him. Many mine

LAWYER BURTON W. GIBSON DISCHARGED THURSDAY BY SUPREME COURT JUSTICE BLANCHARD, NEW YORK

NEW YORK, July 19.—Today in the Supreme court, Justice Blanchard discharged from custody, Burton W. Gibson, the lawyer, who was held by the coroner in \$25,000 bail at the conclusion of the inquest into the death of Mrs. Alice Kinnan. Luke W. Stapleton, counsel for Gibson, started to the court that there were no charges against his client and that he should be discharged. Assistant District Attorney Train said an error had been made and he had no objection to the prisoner being discharged. Justice Blanchard then ordered the discharge of Gibson.

Burton W. Gibson.

New York, July 19.—Burton W. Gibson, lawyer for Mrs. L. D. Stenton at the time of the murder of her daughter, Mrs. Alice C. D. Kinnan, and who has been the central figure in the inquest the last few days in Coroner McDonald's office in the Bronx, was placed under arrest Tuesday night after the jury had declared that Mrs. Kinnan had been murdered by persons unknown and that Gibson be held for examination by the grand jury. Gibson, held in \$25,000, Brooklyn, and when he failed he was taken to the Tombs by Detective Sergeant Price.

When Gibson heard the amount of bail in which he would be held he asked to be paroled in the custody of his counsel. His counsel was not present and in an exchange of words between the prisoner and Coroner McDonald, Gibson declared:

"This is spite work on your part." "Not at all," replied the coroner, "you forget that I could hold you without bail."

When the members of the jury filed into the room for the hearing Gibson sat facing them. He rested easily with one hand on the back of his chair. The supercilious air he has worn did not leave his features. His lip curled slightly when he heard the verdict. He immediately turned to Coroner McDonald when he was

Geneva, Switzerland, July 19.—Major Alfred Dreyfus has arrived at his villa here to spend two months' leave of absence. Dreyfus is very happy in the restoration of his honor.

BODY ARRIVES FROM ENGLAND.

New York, July 19.—On the liner Teutonic which arrived this morning from Liverpool and Queenstown was the body of Miss Mary F. Howson, one of the victims of the recent railroad accident at Salisbury, Eng.

PRESIDENT'S DAY OFF.

Oyster Bay, July 19.—President Roosevelt is taking a "day off." He left Sagamore Hill early this morning with several members of his family. It is understood they have gone for a picnic on the shore of the sound. They will be practically lost to the world until such time as it pleases them to return.

Mrs. Marie Shippo.

arrested and inquired if he could obtain bail.

With dramatic intensity Mary Shippo, the Italian woman who found Mrs. Kinnan in a semi-conscious condition on the porch of the Washington avenue house, repeated her story in detail yesterday. She was cross examined by Gibson. She swore by all the saints that she was telling the truth.

"When I came to her," she said, "Mrs. Kinnan was lying there. I knew that something happened, that

she had been murdered. I asked her then who did it. She told me 'the lawyer,' and then she tried to say some more, but she could not, for her lips were dead."

Once again the Shippo woman reiterated her statement that she told the truth, looked defiantly at Gibson and left the stand.

Gibson himself, who was on the witness stand most of the day, a suave, irritating and confident witness, answering some questions with a sneer or with irony to parry questions offered by members of the jury. He did not raise his voice except on one or two occasions, when he met a question that displeased him with an emphatic statement and a shake of the head.

He scowled at times, but more often looked bored. He was accused of convenient lack of memory concerning his business relations with Mrs. Stenton and the murdered woman, and to this he vouchsafed no reply.

store and one man remained on the outside while two entered the building. Before they secured any of the goods a passerby frightened them away. Three men, supposed to be robbers, entered Fultonham early Thursday morning and boarded a Z & W train for Columbus and they are believed to be the fellows who cracked the postoffice safe.

This is the third robbery of this kind in that vicinity within the past month. First a safe in a brick plant at South Zanesville was robbed and a few days afterwards the postoffice in New Concord was blown to pieces, the men getting away with considerable booty.

"SAMLAND" IS NAME FOR NEW STEAMER

Too Many Boats Are Called America and United States Says the Company.

New York, July 19.—There are so many steamers called America, spelled either with "C" or "K" and quite a few craft named United States, that the International Mercantile Marine company has come a novel title in honor of Yankeeedom. The steamer Mississippi, built for the Atlantic Transport company, but running in the Red Star service, is to be renamed "Samland" when she goes here Friday. The Mississippi is a sister of the Massachusetts, Maine and Missouri. The new name is after Uncle Sam.

FOLK IS AGAINST THE "MAIL ORDER CITIZEN"

In Places Good Enough to Make Money in It Is Good Enough to Spend It.

St. Paul, Minn., July 19.—Governor Joseph W. Folk in addressing the retail merchants of Minnesota at their convention here spoke against the mail order business and urged that it be kept out of the town and country.

citizen," he said. "If a place is good enough for a man to live in and to make his money in, it is good enough for him to spend his money."

"No merchant can succeed without advertising one way or another. Patronize our town papers, build them up, and they will build the town up, and build up increased trade and greater opportunities."

PHILADELPHIA

Will Entertain the Next National Convention of Elks.

Denver, Colo., July 19.—Daniel J. Shein nominated Philadelphia for the next convention city and Baltimore was championed by J. Cooke. The vote stood: Philadelphia, 495; Baltimore, 265. Before this announcement a delegate yelled "Baltimore wins." This announcement caused consternation. The Baltimore people were wild with delight. When the mistake was corrected the Philadelphia band was brought out and started playing "There'll be a hot time in town tonight." The Philadelphia crowd got in line behind the band and marched up and down the street.

DEMOCRATS

To Hold Convention Next Month in Columbus—Lentz Temporary Chairman.

Columbus, July 19.—The Democratic state convention will be held in Columbus on August 21 and 22. John J. Lentz will likely be the temporary chairman, Price Russell of Wayne county, secretary, and Bert Bartlow of Hamilton, sergeant-at-arms. It is expected this plan will go through without opposition as practically every committeeman now here for meeting this afternoon is favorable to it. It is said that harmony will prevail. The convention will mark the opening of the campaign.

STOESSSEL DEATH DEMANDED BY COMMISSION

St. Petersburg, July 19.—The commission appointed to inquire into the surrender of Port Arthur to the Japanese during the recent war today

GENERAL STOESSSEL.

filed its report. The commission proposes that General Stoessel, in command during the siege, be sentenced to death and that General Fock, member of Stoessel's staff, who urged his chief to surrender, be condemned to 20 years' confinement in the galleys.

TOWN BURNING PEOPLE FLEEING

St. Petersburg, July 19.—A Samara telegram today says the entire town of Syzran in government of Samarsk is afloat and that the inhabitants are fleeing toward Samara and Saratoff. Syzran is an important commercial and industrial town 70 miles south of Samarsk on the Syzran river. It is a population of 12,000.

CURIOSITY

Aroused as to Whether Alfred Beit Was a Married Man.

New York, July 19.—Speculation as to whether Alfred Beit, the South African millionaire, who died in London Monday, left a widow was aroused by the discovery that in making an application to an American insurance company for insurance on his life in 1890, Mr. Beit named as the beneficiary of his policy Mrs. Alfred Beit, Elizabeth B. Beit. But whether this statement of fact was true or not, it is not known. It is not known whether Mrs. Beit is still living.

EARTHQUAKE ZONE 30 MILES LONG 10 WIDE

Each Shock is Preceded by
Loud Rumbling Like
Heavy Thunder

PEOPLE BADLY FRIGHTENED

MANY ARE NOW HURRYING AWAY
FROM STRICKEN DISTRICT

Two Thousand at Socorro Camping
in Tents—Nobody Dares to
Go in Doors.

Fl. Worth, Tex., July 19.—Two more severe earthquake shocks are reported from Socorro, N. M., extending south to El Paso. A street car was thrown from the track. E. M. Elk, who has just returned from Socorro, says:

"While I was eating at the Winkler hotel, a shock knocked all the plaster from the walls. When I tried to walk it appeared as if the ground was rising up under my feet. Two-thirds of the houses in the town are cracked and tumbling down."

Albuquerque, N. M., July 19.—The center of the earthquake disturbance is a zone 30 miles long by 10 miles wide, running from the Ladron mountains southeast through Socorro, San Antonio and San Marcial.

This side of the belt the shocks have been hardly felt. Each one is preceded by a loud rumbling like heavy thunder which can be heard approaching from the northwest before it reaches Socorro.

Senor Baca, of Socorro, until recently district attorney, is in the city with his family. He says that people are leaving on every train and those who can not ride on the railroad are leaving by wagon. About 2,000 people are camping out in tents and no one dares to go indoors.

Practically every residence and business block in the town has been irreparably damaged. There has been much distress among the people who are camping in the open, as heavy rains have fallen in the last two days one being the heaviest for 50 years.

Most of the people are going to El Paso, although many are coming to Albuquerque and Santa Fe.

The shocks generally occur as short, sharp jerks, the ground seeming to slip violently. It is believed the adjustment of rock strata in the rugged Ladron and Magdalena mountains is the cause of the continued shocks. Provisions are growing scarce and real distress is found among the refugees.

"The noise and the quakes are frightful," said Mrs. J. F. Lesson, a refugee from Socorro. "I have experienced earthquakes in Los Angeles and San Francisco, but never anything so sickening as these prolonged rockings and jerking of the earth at Socorro. Water placed in a bowl will show continued vibrations between the greater shocks, showing that the earth is never still. Not a house in town is safe to enter and the chimneys and walls topple with each recurrent tremor."

Kansas City, July 19.—A special to the Times from El Paso, Tex., says Socorro, N. M., South of Santa Fe, has been badly damaged by an earthquake. Fifty two shocks have been felt since Sunday morning. The court house is wrecked. The buildings of the school of mines are cracked and nearly every residence in the city is cracked or wrecked. More than two thirds of them at least are damaged or destroyed.

Santa Fe, N. M., July 19.—Two more earthquake shocks at Socorro. The shocks were felt distinctly as far south as El Paso, Tex., where a street car was thrown from the track by the shock. Refugees from Socorro and other towns in the Rio Grande valley are daily coming to Santa Fe and Albuquerque. All night long one tremor after another passed over the lower Rio Grande valley, keeping the people at the highest tension. But few have slept in houses for the past three nights. Observers report that a small earthquake in the fields in the direction of a town in the Rio Grande valley, about 100 miles from Socorro, has been reported.

SAMPLE OF HUNDREDS OF LETTERS HARRY THAW RECEIVES.

"Are you downhearted,

Bijou Price
I will kill you & dog

This threatening message, written on a postal card, was mailed in Gloucester, N. J., and was addressed to "Harry K. Thaw, Tombs Prison, N. Y." The signature, as near as can be deciphered, seems to be "Bijou Price."

ELECTRIC POWER IN STEEL WORKS

Iron Trade Review Calls Attention to
Startling Invasion in Rolling
Mills and Foundries.

Cleveland, O., July 19.—The Iron Trade Review in its issue of today calls attention to the startling invasion of steel works and rolling mills by electric power. In this connection it says:

"The line of improvement in electrical machinery which has probably done most to encourage its adoption in mill operation has been that of developing a high torque at starting. The first important application of electrical power was in cranes, where the chief competition was hydraulic power, with its absolute suddenness of starting and stopping, a line on which the early electric motors could not compete, and advantages in other directions had to be shown to make up for this deficiency. This has been all changed, when a motor driving a heavy mill can reverse in three seconds.

"Electricity has thus far found no limit in iron and steel works operations. It has conquered in one direction after another. Its most recent success, in driving the heaviest machinery, leaves no field unconquered. It certainly is the universal fluid, when it helps to raise the iron ore from the ground, separates it where necessary, by another form of its power, from the gangue, drives machinery in various processes through the conversion into finished product, furnishes light at all stages, and even by magnetic attraction lifts huge pieces of steel when they must be carried from one point to another."

The pig iron market is exceedingly strong. Practically all of the basic and Bessemer that can be made in the valleys this year has been sold, and there is little available foundry iron. Prices are firm with a tendency to advance. In the south the shortage of labor continues to cause much embarrassment, production is decreased and deliveries are being retarded. The principal malleable interests have purchased 25,000 tons. Some very exceptional sales of southern iron are being made at \$13, but the usual price is \$12.25 and some furnaces are holding out for \$13.50. The scarcity of northern iron is shown by the shipments of pig made at Ironton, O., to the Cleveland district.

The action of Secretary Bonaparte, in dividing the tonnage for two battleships among three companies, has been received with general favor by the trade. It is expected that at an early date orders for 11,000 tons of plates and structural material for the battleships will be placed in Pittsburgh mills. This is in addition to the requirements for armor plate. The plate market shows decided improvement. Contracts for plates for two lake freighters have been placed within a few days, and requirements of two other freighters are under consideration.

The New York Central has awarded the contract for 80,000 tons of rails to the Illinois Steel Co., and the same amount to the Lackawanna Steel Co., for delivery in the spring of 1907, for the use on lines west of Buffalo. It is understood that the entire requirements of this system for 1907 will be 240,000 tons. Among other large orders placed for rails were 10,000 tons each by the Erie, Lehigh Valley and Great Northern. It is estimated that orders for 15,000 cars are pending, and the buying of track supplies is active. In the placing of orders for bridge material the railroads are also conspicuous.

The Iron Market.
New York, July 19.—The Iron Age says: Consumers of iron and steel who were holding aloof from the market a few weeks ago, waiting for more light on the crop outlook, seem to have put aside their doubts. The uncertainties about the renewal of mid-year contracts in a few finished lines have been settled, and the tonnage is now on the manufacturers' books. The bar situation in particular has greatly strengthened, and some buyers of structural steel who hesitated are now committed. Reports from buyers are of one tenor—that the beginning of the end of the heavy consumption of months is not yet in sight.

F. B. COPPER

Slated for Col. Wilder's Position.
Made Vacant Saturday is Well
Known in Newark.

Railroad men who make books on such things are looking very hopefully towards Frank B. Copper as the probable successor to D. S. Wilder as the local division passenger agent for the B. & O. Copper is at present a traveling passenger agent with headquarters at Newark. He is well acquainted with the territory and with the local affairs, and is, more than that, one of the oldest men in point of service with the passenger department of the B. & O.

Mr. Copper is a capable young man and is well and favorably known in Newark. His many friends hope he will be successful in landing the position which will be a merited promotion.

INSANE PATIENT

Kills Two Women and Mortally
Wounds a Keeper.

Scranton, Pa., July 19.—A terrible tragedy was perpetrated in the Hill-side Home when one of the insane patients killed two inmates and mortally wounded one of the keepers. The murderer is Ignatz Krewzyp, a deaf and dumb Pole, who was not regarded as dangerous. He was given work in one of the wards with two women, also insane patients, Mrs. Ann Golden, a widow aged 53 years and "Missouri" Ann Van Valen, aged 58 years. The three were moving some coats under the direction of Keeper Richard Davies, who left the room momentarily. Seizing the opportunity afforded by the keeper's absence, the insane man ran into the doctor's office and there picked up an amputating knife with a blade about ten inches long and ran upstairs to the upper floor. Keeper Davies ran after Krewzyp and the latter turned upon him and buried the knife in the keeper's chest. He then ran upstairs and attacked the two women. He stabbed Mrs. Golden in the chest, the knife piercing her body twice, and then stabbed Mrs. Van Valen once. Floyd Beemer, the son of the superintendent of the institution, followed the man, and after his attack on the woman he knocked the knife out of his hand. Both women died soon afterward.

DECISION AGAINST HENRY H. ROGERS

Court Orders that One-Half of the
Profit be Turned Over to Com-
pany by Rogers.

Boston, July 19.—A decision to plaintiff was handed down in United States circuit court in the case of George W. Pepper, receiver of the Bay State Gas company of Delaware, against Henry H. Rogers, of New York, in the suit to recover \$3,000,000 alleged to be due the gas company in connection with the sale of Boston companies. The court orders that one-half the profit of the sale or \$1,500,000 be turned over to the gas company by Mr. Rogers.

SUIT ENTERED AGAINST OIL MILLS

Asking Judgment of Five Thousand
a Day Aggregating the Sum
of \$130,000.

Little Rock, Ark., July 19.—Suit was entered against the five cotton seed oil mills of this city by Attorney General Rogers and Prosecuting Attorney Roberson, charging them with being members of a combine in violation of the anti-trust law and alleging restraint of trade. The suits ask judgment in the sum of \$5,000 per day, aggregating \$130,000 against each company, and asking also the revocation of their charters in this state. It is the understanding in court circles here that suits are to be entered against the remaining 24 mills as soon as the papers can be filed.

ARMISTICE DECLARED Between the Hostile Central American Republics.

Washington, July 19.—The armistice between Salvador and Honduras on one side and Guatemala on the other began Wednesday. A treaty of peace is to be discussed in neutral waters on board the U. S. cruiser Marblehead.

The Guatemalan minister, Mr. Munoz, is much annoyed by reports from Salvadoran points that Guatemala continued fighting after it had agreed to cease hostilities. "Such stories are absolutely without foundation," he said. "There was no agreement to cease fighting until the armistice went into effect, and the enemies of my government are endeavoring to put it in a false light."

Touching the authorization to American Minister Merry to represent Costa Rica in the approaching conference on the deck of the Marblehead, the minister explained that while his country had always maintained an attitude of strict impartiality in the present controversy between Salvador and Guatemala, it was deemed best to have a representative present at the conference in case the discussion should in any way involve the interests of the other Central American countries.

Diplomatic Changes.
Washington, July 19.—William Heinke, now second secretary to the United States embassy at the City of Mexico is promoted to be first secretary of the legation at Bogota. Paxton B. Hibben, now third secretary at St. Petersburg, is promoted to second secretary at the city of Mexico. The vacancy thus created at St. Petersburg is filled by a new appointee, Basil Miles, of Pennsylvania.

Invitation to President.
New Orleans, July 19.—An invitation to President Roosevelt to visit New Orleans while en route to Panama this fall and to participate in the 25th anniversary of Louisiana was mailed by President Albert Goldschmidt, of the New Orleans progressive union. Mr. Goldschmidt writes that he is informed that the president may make the trip on the Louisiana.

STABBING AFFRAY ON NORTH TENTH ST.

Don Cramer Was Stabbed in the
Back by a Companion
Last Night.

Wearing a shirt with a hole in the back, all bloody from a wound alleged to have been made by Carl Woods, Don Cramer appeared before Mayor McCleery Thursday morning to file a charge of stabbing to wound against Woods. The lads had some trouble on North Tenth street Wednesday night and Cramer claims that Woods attacked him with a knife. He stated that the boy made several slashes at him, the first two or three strokes being made at his throat. The wound in Cramer's back is only a small one, the knife blade penetrating but one inch or less. The affidavit was placed in the hands of Chief Sheridan for service. Woods is but 15 years old, while Cramer is about the same age.

County Assessor Waylaid.

J. W. Coulter, of Leslie, S. D., Assessor of Stanley county, relates the following: "I was waylaid by a complication of throat and lung troubles, bronchitis, asthma and a terrible cough, which had affected me for years, when I was persuaded to try Dr. King's New Discovery. Relief came almost immediately, and in a short time a permanent cure resulted." No other medicine compares with it as a sure and quick cure for coughs and colds. It cures after all other remedies have failed. Every bottle guaranteed at Hall's drug store. Price 50c and \$1. Trial bottle free.

PRESIDENT REFERS CLIP TO COMMISSIONER

Saw Dispatch Telling of Finding
Dog License Tag in a Can of
Chicago Meat.

Washington, July 19.—The President recently ran across a paragraph in a paper which told how a Richmond, Va., man, found a Chicago dog license tag in a can of wieners. The President carefully pasted the clipping on a large sheet of paper and forwarded it with a letter to Commissioner Neill, who is largely responsible for the present meat agitation. Underneath the clipping the President wrote in bold letters, "Respectfully and prayerfully referred."

ANTI-SMOKING LAW WANTED BY COMMITTEE

Of House of Lords on Juvenile Smoking—The Committee Files Its
Report.

London, July 19.—The committee of the house of lords on juvenile smoking has reported in favor of legislation on the lines of Sir Ralph Lister's bill in the house of commons, providing a penalty for selling cigarettes to a child under 16 years of age, imposing a penalty on a child found in possession of cigarettes or smoking tobacco, and authorizing the police, schoolmasters and park keepers to stop youths from smoking and to confiscate their tobacco.

SPEAK KINDLY OF LADY CURZON

Editorial Articles in English Papers
Refer to Her Sad Death
Wednesday.

London, July 19.—The editorial articles in the newspapers this morning deal sympathetically with the death of Lady Curzon of Kedleston. They dwell on her intellectual force, beauty, grace and tact, and the brilliant success she achieved in India, where as vicereine she worked "with heart and head for the welfare of the people." They also emphasize her benevolent solicitude for the humbler classes and attribute much of Lord Curzon's success in India to her. The articles point out that Lord Curzon has the sorrow and sympathy of three great countries in his bereavement. Lady Curzon was Mary Leiter, daughter of the late Levi Z. Leiter, of Chicago.

Artist's Daughter Marries.
London, July 19.—Kate Millet, daughter of Francis D. Millet, the American artist, was married at the Parish church, Broadway, Worcester-shire, to Frank Adlard, son of a Worcester-shire landowner.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and, therefore, requiring constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only catarrhal cure on the market. It is taken internally, it acts directly on the blood and cures the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Hall's Family Pills are the best.

SKILLED LABOR

Badly Needed in Various Branches in
San Francisco.

San Francisco, July 19.—The following statement as to the dearth of skilled labor in various industries here has been issued by George Fredericks, president of the Iron and Brass Foundry association:

"While a very large number of mechanics have arrived in San Francisco since the fire, all of whom have found employment at good wages, the demand for labor is daily increasing, and the large contracts daily offered to contractors have been refused owing to the scarcity of labor. Wages ruling here are higher than any where else in the United States. The following concerns, who compose the foundrymen's association, namely, the Union Iron Works company, Risdon iron works, West foundry, Dow pump works, Enterprise foundry, United Engineering company, Pacific foundry, Phoenix iron works, Pacific rolling mills, are all short of men in all departments of trade that are called for in ship and engine building, and especially pattern makers and machinists.

Many mechanics are staying away from San Francisco owing to the fact that they think the whole city is burned out and that they cannot find any place to house themselves and their families. This is a false impression. Buildings are going up night and day and there is no trouble finding accommodations at reasonable prices."

OFFICERS RE-ELECTED BY NORTHWESTERN CO.

Henry L. Palmer Again Chosen Pres-
ident—Growth of the Insurance
Company.

Milwaukee, Wis., July 19.—The annual meeting of the Northwestern Mutual Life Insurance company was held at the home office in this city. Henry L. Palmer and all the remaining officers of the company were re-elected. The report of the board of trustees shows the present assets of the company to be \$215,000,000, an increase of \$13,000,000 in the last fiscal year. The amount of new business during the year was \$111,000,000.

FOUR PERISH IN FIRE IN IDAHO

Mrs. Charles Justus and Three Chil-
dren Burned—Four Children
Escaped.

Boise, Idaho, July 19.—Charles A. Justus, 39, and three children of his sister, Mrs. Samuel Moudy, were burned to death at the family home-stead four miles east of Middleton. The parents were in a hospital at Boise. Justus remained with the seven children. When the house was found to be on fire, the four older children escaped. Justus went into the burning building to rescue the younger ones. Their charred bodies were found in the ruins.

Left Part of the Loot.
Rostov On Don, July 19.—While two clerks employed in the government bank were carrying from the postoffice \$120,000 which had been received in the registered mail, they were attacked by a band of six armed men and seriously wounded. The robbers made off with the money, but under hot pursuit by police and Cossacks they sacrificed \$100,000 of the booty and escaped.

Board of Trade's New Rule.
Chicago, July 19.—Adherents of the open market on the Chicago board of trade won, an amendment establishing a call system on corn and oats being adopted, 542 to 136. The new rule is designed to encourage the shipment of commission grain and the amendment contains a clause to protect the commission rule. The chief opponents of the new rule were the elevator interests on the board.

NATIONALIZATION

Of All Industries Is Said to Be a Ja-
panese Scheme.

Washington, July 19.—According to advices received by the bureau of manufactures, the Japanese government has undertaken one of the greatest experiments in the world's history, which indicates a clear purpose to protect, supervise, develop and nationalize all Japanese industries. It is stated that the provision for the nationalization of the railways was but a single step in the plan of industrial nationalization toward which the country fast is approaching.

The question of Manchurian development has received careful attention and it is now proposed that a company should be formed by the government and private capitalists jointly for working and developing the railways, mines and forests in Manchuria. If successful along the lines Japan is working, it is stated that the individuals and corporations of America that are striving for the trade of the Orient will discover that they are not competing for this trade against individuals and corporations of Japan, but that they are in commercial conflict with the Japanese nation itself.

"The Admiral's Star for the Jolly Tar"

Admiral and tar tip their hats to "Star"—it's everybody's good chew. It's both the best and most economical chew made.

"Star" is honest value. Every plug is full 16 oz. weight, and always has been. "Star" quality is the highest as it always has been for over forty years.

STAR PLUG CHEWING TOBACCO

still costs the same as when it was first put on the market because it couldn't be cheaper and be so good.

But "Star" is really the most economical plug you can buy because the ripe, fine-bodied leaf in "Star" is elastic and makes a lasting chew—it chews clean, rich and juicy—twice as long as "cheap" chews.

"Star" is the standard chew—standard quality, standard price, standard value—sales equal those of any five other kinds.

THE SPIRIT OF INDEPENDENCE.

(Columbus Dispatch.)

The independent voters of Toledo, who have won some notable victories in municipal and county politics, are now preparing to extend the independent movement throughout Ohio by means of an effective state organization. They propose not only to organize the independent voters but to establish a regular independent party, hold conventions and name a full independent state ticket.

If the Toledo independents carry their campaign for good government and decent political practices out into the state with the same vigor and intelligence employed by them in Toledo and Lucas county, it will be at once impossible to suppress, minimize or ignore their organization as a factor in state politics. There is a tremendous sentiment against bossism, gang politics and machine methods everywhere in this country. The people have had their eyes opened and are thinking for themselves. This is an era of political disillusion, and the spirit of protest and independence is abroad in the land.

In Ohio the people bear humiliating witness to the spectacle of the trust-ridden Foraker and the impertinent of the Republican state central committee when he summoned them to meet in Columbus the other day, and the committee obeyed its master.

Call of The New Democratic Central Committee.

The said committee is called to meet at the convention room of the Court House in Newark, Ohio, Saturday morning, August 4th at 10 o'clock for the purpose of organization, the selection of a new executive committee for the ensuing year and such other business as may properly come before said committee.

The following are names of said committeemen:

R. W. HOWARD, Chairman.

"IN HIS MIND," YES.
If Senator Dick could control the votes of Ohio as easily as he controls the Republican state central committee, and expects to control the Republican state convention, wouldn't he be the greatest and mightiest man the Lord ever made—in his mind?

N. Y. Z.

New Use for Cocaine.

In his charge to the Warren County grand jury Monday, says the Mobile, Ala., Register, Judge Rush drew attention to the alleged "doping" with cocaine of roustabouts by steamboat mates. The judge stated that it had come to his ears that the mates carried a supply of the deadly drug which they gave to the negroes in liberal doses. When stimulated by the drug the roustabout's capacity for work is greatly increased, and by the time the trip is ended he is a physical and mental wreck.

The liver of the sea taken up in clouds each year is estimated at 11 feet in thickness.

and deficient Dick in a combination for the selfish control of the Republican party. Despite the warning of the last election in Ohio this dual combination became bolder and more aggressive in offending public opinion. In the senate, Foraker with studied conspiracy betrayed every interest of the people to his masters, the trusts and railroad corporations. He set himself up in opposition to the policy of the president on every possible occasion, and openly defended notorious bosses on the floor of the senate.

Dick, equally brazen, but with far less intellectual equipment, now scheme to become the boss of the Republicans of Ohio, a title at once intolerable to the rank and file of the party and for which Dick is wholly unfitted either mentally or morally.

A powerful independent party is now striking at the iniquitous Quay gang in Pennsylvania, a gang that Dick seeks to emulate in Ohio, especially the Pennypacker press-muzzling tactics. The spirit of independence which has already been more than emphasized in Ohio may yet prove of even greater power. The independents of Toledo have a fertile field for their state movement.

MR. DICK IS BOSS AND HAS HIS WAY

REPUBLICAN CONVENTION IN NON-UNION HALL IN DAYTON ON SEPT 11-12.

Columbus People Say It Will Cost Republicans Thousands of Votes in Capital City Alone.

As announced Wednesday, the Republican state convention will be held at Dayton, O., September 11-12. Ex-Governor Herrick will be temporary chairman, Governor Harris will be permanent chairman, John R. Malloy will be secretary and Richard Gilson sergeant-at-arms. The convention will have 862 delegates. Dayton was selected on the second ballot by the following vote: Dayton 12, Columbus 0, Canton 5, Cedar Point 4. On the first ballot Columbus got 3 votes, Dayton 8, Canton 5 and Cedar Point 4 votes.

The Columbus Dispatch referring to the committee's action says: The convention, by the action of Dick, will meet in the non-union trust hall or the National Cash Register company at Dayton, owned by Patterson, who has not only been fighting labor unions but by vicious and unfair business methods brought about the ruin of one of Columbus' big industrial institutions (the Hallwood Cash Register Company) resulting in the loss of millions of dollars to scores of Columbus people.

A well known banker of Columbus who is also a leading Republican, told one of Dick's followers in the foyer of the Neil house that the action of the state central committee in taking the convention to Patterson's anti-union labor hall in Dayton will cost the party three thousand votes in the city of Columbus alone.

Said the Columbus banker: "The mean fight of the National Cash Register company on the Hallwood company of Columbus has cost the people of this city hundreds and hundreds of thousands of dollars, caused ruin on the banks and has been the cause of untold suffering and ruin in many families in Columbus. The people of Columbus will not forget this. This Dayton move is a monumental blunder."

Compton's Big Piano Sale

9 North Fourth St.

A carnival of bargains, a feast of piano buyers, an object lesson long to be remembered by the citizens of Newark and vicinity.

Fifty grand and upright pianos at prices lower than ever. Out of a lot of One Thousand that we have just purchased, fifty are being shipped to our Newark Store and the price we will sell them at will be an eye opener to every one.

Good standard made pianos that always sold from \$250.00 to \$300.00 will go from

\$150 to \$225

Pianos that have sold from \$300.00 to \$450.00 we will sell from

\$225 to \$300

People who have visited our store are surprised at how we can sell pianos so cheap and on easy payments. Remember we are manufacturers and jobbers in pianos, with factories and main offices located at Coshocton, Ohio, only thirty miles distant. This is the reason why we can sell pianos for less money than some dealers pay for them and still have manufacturers profit. We sell on the easy payment plan and are here to stay.

JOHN A. MORAN AN INTERESTING FIGURE

New York, July 18—One of the most interesting figures of the New York horse market is John A. Moran, better known as "Blankets." He exemplifies Mr. Roosevelt's idea of good citizenship—a man with a patch on his breeches, an opponent of race suicide and a successful representative of primitive individualism in business all rolled into one.

In a tidy little tenement a stone's throw from the old Bull's head Tavern he has raised a family of thirteen children, and for 23 years has gained a living by making horse blankets.

Mr. and Mrs. Legge and daughter of Outville, Miss Anna Voorhees and Mr. John Mower of Kirtersville, were guests of Mr. and Mrs. Long Sunday at their home on East Main street.

Congressman John Sharp Williams of Mississippi, Democratic leader on the floor of the house of representatives, has persisted in asking why the house did not pass the senate bill forbidding corporations contributions to national campaign funds and why the president did not insist on the passage of the bill after twice recommending such a measure. The question is a very embarrassing one for the average Republican Congressman who is asking for another term, and will be more so later in the campaign. The people will come to a pretty clear understanding that the reason the Republican Congressmen did not want the bill passed is that they desire a continuation of campaign contributions from the trusts for their own reelection.

Senator Dick's dislike for the newspapers as shown by his recent Cleveland interview is pretty certain to enlighten Ohio people as to the real calibre of the man. It sizes up his intellect. It ranks him as merely a political boss of very ordinary type and nothing more.

The effect of the packing house exposures is shown in the decrease in exports of canned meats for the month of June, according to official reports. This causes an exchange to remark that the stock for home consumption is greater in consequence, and that it isn't a pleasant prospect.

"Did the Filipinos and Porto Ricans seek our protection?" asks the Atlanta Constitution. The Porto Ricans welcomed General Miles with outstretched arms, but they have since learned by bitter experiences that a Republican administration, notwithstanding its professions of a square deal, is not to be depended upon to grant such a thing speedily.

"I am monarch of all I survey: my right none of you will dare to dispute," quoth Senator Dick in the ears

Science in Selecting Proper Foods

People Are Unhealthy Because They Do Not Eat The Right Food.

In these days of adulterated foods and food products such a food as is known to be pure and wholesome is indeed welcome. We have heard of many breakfast foods and cereal products—some broadly advertised as whole products, extracted from selected cereals known to man. No doubt they are all good and possessed of some merit, but most of them are manufactured with some foreign sweetening agent to make them palatable. Among all the breakfast and cereal foods offered the public to-day, we believe, we have the finest, purest, most healthful and wholly pure grain product and nothing else, except a little salt. Malt-Vita as it comes to you from the factory is all of the wheat. It has been thoroughly cleaned, steamed to gelatinize the starch, then added to it is barley malt extract made from selected barley—this, acting upon the starch, turns it into maltose or malt sugar, pronounced by physicians and food experts to be the finest, most healthful sweetening agent known. Then the grain of wheat is rolled out flat into a thin water flake and baked up in the oven. It comes to you fresh and pure and sweet—absolutely nothing but a grain product prepared in the cleanest and most healthful manner. Malt-Vita is food that can be found. Malt-Vita is sold by all grocers. Now 19 cents.

Our Great Clearance Sale

Is surprising many people who drop in "just for a look." We're aware that there are many buyers who look upon a special sale as a "fake," "a scheme," or some sort of a trick of the trade. Perhaps they have reasons for the opinion.

BEEN TRADING AT THE "WRONG STORE"

It's this class of buyers that are surprised to find our bargains—honest bargains, and our goods just as we represent them to be. A man said the other day "YOU DO BETTER THAN YOU ADVERTISE." That is the way we surprise people. The discouraged purse receives comfort here.

Passing of the Clobber.

How many shoemakers do you know? How many young men, young men who are learning the cobbling trade? It is a very safe betting proposition that you can't name a half dozen men under the age of twenty in Newark who are learning the gentle art of repairing men's soles.

It is a fact, lamentable or otherwise, depending largely on the point of view, that the old shoemaker is passing. The advent of machinery has made his business of less and less importance every year, and the old time cobbler's swan song will be heard in the land before another decade.

How long has it been since you sat fascinated by the old shoemaker who reeled you off a story between the lightning taps of his hammer? It used to be a real pleasure to take your shoes to the shop for repairs, and in those days there were young fellows learning the trade. But it is not so now. Machinery has changed all this, and when the present generation of shoemakers shall have passed to their fathers, it will probably be a hard proposition to get a good job of cobbling done.

The old shoe maker is the fellow who isn't much in evidence around the modern store. He is not a part of the scenery but is usually immured in some stuffy back room and pegs away all day long with no more than a dozen words.

Whether or not the price of shoes will have decreased so materially within the next decade, that it will be useless to repair them, is a question for time alone to solve, but it is pretty certain that by that time there will be mighty few men who understand and can do a fair job of cobbling.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no chance but to resume healthy growth and beauty.

WHAT'S DOING IN BUCKEYE STATE

MRS. MCKINLEY'S WEDDING GIFT TO HER NIECE MARRIED ON WEDNESDAY NIGHT.

Girl Suicides—Chardon Wants Rain—Seven Tickets for a Quarter.—Other News.

Canton, O., July 19.—A beautiful mahogany chest containing 106 pieces of silver is the wedding gift of Mrs. McKinley to her niece, Miss Grace McKinley, who was married last evening to Captain Villard Graysen Heidt, at Fort Des Moines, Iowa. The late president gave a similar remembrance to several of his nieces upon the occasion of their marriage.

Girl Suicides.

Columbus, O., July 19.—Flora Kauffeld, 19, daughter of Henry Kauffeld, 761 South Third street, employed in the cracker room at the National Biscuit company's plant, committed suicide by drinking carbolic acid and died at St. Francis hospital an hour and a half later without having regained consciousness. No cause is known for her act.

Chardon Wants Rain.

Chardon, O., July 19.—The long continued drought has done much damage to farming interests in this vicinity. There has not been much rain in Chardon since April 1. The earliest planted gardens are several weeks backward. There are no home-grown potatoes on the market as yet. Every shower goes either east or west.

Will Try Co-Operative Plan.

Springfield, O., July 19.—The Clark County Profit Sharing company, incorporated with a capital stock of \$5000, will open a co-operative store where will be sold all groceries, meats and all supplies at greatly reduced rates. The plan on which the store will be run, will be similar to those in England and Scotland.

Seven Tickets For a Quarter.

Cleveland, O., July 19.—The proposition of the Old Line street railway companies of this city to the city council for an extension of franchises was formally decided on this evening. The railway companies offer to bind themselves to sell seven tickets for 25 cents and to give universal transfers. This it is claimed will probably furnish the lowest fare to be had in this country and is practically the same as the competing 3-cent lines projected by Mayor Tom L. Johnson and others now in process of construction. The proposition will come up for consideration by the council at its next meeting when the ordinance granting franchises to the new rival lines backed by Mayor Johnson, and which are understood to be meant for municipal ownership ultimately, will also come up.

Slow Races.

Put in Bay, O., July 19.—The windward and leeward race in the inter-lake regatta turned out to be an eight-hour drifting match, as it took that time for the wind to cover the five-mile course. In the 21-foot class the Spray of Detroit won; time 5:56:05.

Germs Prove Fatal.

Cleveland, O., July 19.—Germs extracted from Chicago canned meat by City Chemist Pate caused the death of a guinea pig. The germs next will be injected into white mice and rabbits to see what the effect will be.

Farmer Arrested.

Kenton, O., July 19.—On warrant of the girl's mother, Thomas J. Aldrich, a well-to-do farmer, was arrested on the charge of an assault upon Cora Vivian, 14 years old.

Vorys a Candidate.

Columbus, O., July 19.—Arthur I. Vorys, state commissioner of insurance, announced that he will be a candidate for the Republican nomination for secretary of state.

PRACTICE MARCH

Of Y. M. C. A. Boys to Zanesville. Commenced Thursday Morning.—Mr. Ludwig in Charge.

Fifteen or twenty of the boys of the Intermediate department of the Newark Y. M. C. A. in charge of Physical Director Ludwig, left Thursday morning for a practice march to Zanesville and down the Muskingum river some distance. They were all in heavy marching order and carried the regulation outfit, consisting of blankets, etc. They calculate on making about 26 miles a day. They will spend Saturday on the Muskingum river, boating and fishing, and will return home Saturday night on the trolley. The boys are in training for the hike to Marietta the first of August, and on that trip they will camp wherever night overtakes them. At Marietta quite an extensive program of entertainment is being made for the boys. There will be an excursion to Parkersburg, and there will be games of basketball, baseball, volleyball, etc. They expect to be gone on the trip eight days, and will return to Zanesville from Marietta on the steamer Lorena, thence by trolley to Newark.

The coach in which the Lord Mayor of London rides on state occasions has been in use since the year 1757.

APPLICATION FOR INJUNCTION

Further Litigation in Connection with
Payment to Hart of the
Indian Fee.

Washington, July 19.—Further litigation in connection with the payment to A. H. Hart of the Cherokee Indian fee was begun here when Frank J. Boudnot, an eastern Cherokee, applied to the district supreme court for an injunction against the secretary of the interior and the United States treasurer to prevent the payment of an attorney's fee, said to amount to \$50,000, to Finkelberg, Nagle and Kirby of St. Louis, Mo., and Edgar Smith of Vinita, Indian Territory. Boudnot alleges that the contract under which the fees are claimed was never executed by the Cherokee nation, but was entered into by Thomas M. Buffington, principal chief of the nation, against the public vote of the nation in council assembled.

Palermo, July 19.—The eruption of Stromboli continues with undiminished force. Mount Etna, after a long period of quiescence, is emitting smoke.

Motion to Quash Entertained.

Charlotte, N. C., July 19.—Judge Thomas J. Shaw, presiding over a special term of Union county superior court at Monroe, entertained a motion to quash the indictments against the alleged lynchers of J. V. Johnson on the ground that they could not properly be brought in Union county. Counsel for the state took exception and applied to the supreme court. The twenty defendants were held in \$5,000 bonds each for their appearance at the next term of the Union superior court, by which time a decision may have been reached by the state's highest court.

TOBOSO.

In the base ball game here Sunday the Black Hand Stars defeated the Eureka of Newark. Score 18 to 1. The battery work of the Black Hand team was perfect. Some features of the game were the fast fielding of Centerfielder Wright, and the fine stickwork of Collins, the colored catcher of the visiting team.

"Probationary Marriage is the only solution of the Marriage and Divorce Problems."

A Scripps-McRae press telegram to the Advocate from Chicago Wednesday telling of Professor Charles Zeublin's talk on morals before a class in the Chicago university, created no little interest in Newark, not only because of the unusual attitude

taken by the speaker but because Professor Zeublin is personally known to many people here. Prof. Zeublin, who is a grandson of Judge Charles Follett, recently gave a series of Civic Improvement talks at Taylor Hall that were much appreciated.

In connection with the Zeublin talk before a Chicago university class the following Chicago dispatch will be of interest:

Chicago, July 19.—A hurried meeting of the trustees of the university of Chicago was called late yesterday to consider the case of Prof. Charles Zeublin, who advocates "probationary marriages" or "marriages on trial." Trustees of the university are being told on all sides that the delivery of the sensational lectures marks the point where the application of the curb is imperative and emphasizes the immediate necessity of the appointment of a strong head to succeed the late President Harper and guide the destinies of the great school.

"The probationary marriage is the only solution of the marriage and divorce problems. Let a man and a woman, before marriage, be constantly in each other's society for six months, or a year, to get thoroughly acquainted and learn each other's faults and caprices and foibles. Then there will be fewer unhappy marriages."

This was the startling proposal of Prof. Zeublin of the university of Chicago, in explaining a recent lecture to the students, in which he attacked present day standards of morality.

His plan outraged the proposal of George Meredith, the famous English novelist, a year ago, that marriages be contracted for a definite period, say five years or ten years, and that a practical divorce go into effect at the end of that time with the consent of the two parties.

"Our ideas on marriage are the outgrowth of our conventional ideas of morality," says the professor. "This showed itself in the outcry against Gorky and the woman he claims as his wife. He may never have been married to Mme. Andreieva by any legal ceremony, but I believe that they were truly married, and more married than most people in the United States."

Here are some epigrams from the professor's lecture:

"There can be, and are, holier alliances without the marriage bond than within it."

"Marriages in the United States are nothing but property arrangements."

"Women are merely dupes for men under the cloak of the marriage relationship."

"Every normal man or woman has room for more than one person in the heart."

"Our present attitude toward marriage makes friendship impossible."

"Most people are dirty physically, mentally and morally."

"No clean minded person can object to the nude."

"Most Chicagoans have neither the opportunity nor the desire to remove the dirt."

WORK PROGRESSES ON NEW BUILDINGS

STEEL WORK GOING UP ON BIG SKY SCRAPER ON NORTH THIRD STREET.

Sherwood Block Making Good Headway—Other Buildings in Course of Construction.

The work on the new buildings which are going up around town, has been progressing steadily for several weeks and to a stranger coming to the city it would appear that Newark is on a big boom. Of course, this is partially true. It is not a boom in the general sense of the term, but a really healthful growth.

The big skyscraper which is going up on North Third street has already assumed the metropolitan appearance of huge girders of steel thrusting themselves skyward. It is the first building to be erected in Newark of any height and the work of hoisting the large steel beams into their places has attracted the attention of thousands of passersby. Already the steel work has reached the second story and the riveters with their red hot bolts are furnishing amusement for hundreds every day.

It is interesting to watch the riveting work. The rivets or bolts used to secure the steel work, are heated in a forge in the basement. The man in charge of the work takes the hot rivet from the fire in a pair of tongs and tosses it into the air, probably 75 feet, where it is caught by one of the workmen, in a keg. The accuracy with which this hot rivet is thrown has excited lots of comment among those who have passed to watch the work.

At first and West Main streets the new Sherwood apartment house is going up rapidly. The brick work has already gone up two stories and the work is being rushed as rapidly as possible. The Dr. C. A. Hatch building just east of the Union block, on Church street, is also nearing completion and the workmen are rushing things.

Richard Dold's property in West Main street will be completed by September first, according to a statement given out a few days ago. The brick work has gone up as far as the second story.

The O. P. Connor building at Eleventh and West Main streets, is rapidly nearing completion. The brick work has been completed and the building is now ready for the finishing touches. The B. & O. railway company is making progress with the extensive improvements in the yards.

The excavation on the site of the Chilcote & Jones building between Main and Church streets on Fourth Main is almost completed, and the brick masonry in the foundation has been started. In the excavation, the workmen struck a bed of blue clay which made the work progress very slowly. It is almost completed, however. Much of the concrete work has also been put in.

In addition to these large buildings mentioned there is considerable activity in residence building. A number of dwellings have been erected and are now being completed, soon to be occupied. Advances in cost of material and labor have delayed no little building

in the city but notwithstanding this the mechanics at the present time are nearly all employed.

SHE WOULDN'T TELL AGE TO THE NOTARY

Columbus, July 19.—Because she would not tell her age under oath, Mrs. Tenie Fristoe, employed as a cook at the American house, languished in the county jail for an hour when she was released on habeas corpus proceedings. The question was put to her by a notary public while taking her deposition. The attorneys for the woman claim that the question was irrelevant.

SNAKE WRAPS ITSELF AROUND BOY'S LEG

Millersburg, July 19.—While Fred Fites, a boy, was crossing a field of wild grass near his home, a large black snake attacked him and coiled itself around his legs. The lad screamed for help and his mother, grabbing a hoe, hurried to his aid.

In the meantime the boy had extricated himself from the coils of the reptile but was about exhausted. The reptile again prepared for an attack, but the woman beat it with the hoe and killed it.

At Warren, O., Charles McMillen fired three shots at Bert Fox and then turned his revolver upon himself with fatal effect. Fox was only slightly injured.

"MAIN LINE" IN PATASKALA PAPER

TELLS ABOUT COMMERCIAL AND INDUSTRIAL IMPROVEMENTS AT NEWARK.

New City Park—New Postoffice and Skyscraper—Building Boom in County Capital.

Pataskala, July 19.—The Standard's Newark correspondent "Main Line" tells about Newark's commercial and industrial improvements in the following strain:

If you feel the pulse of any of the active citizens of Newark today, and are able to diagnose the symptoms, you will detect a chronic pride in the present and prospective prosperity of Licking county's capital. To hear some of the real estate men talk you would infer that Granville, Ontville and Pataskala would soon become a part of greater Newark.

Just now there is a disposition to look up something that will set better in the public mind than the reflections and odor of the waterworks muddle. So attention is directed to a more palatable and pleasing subject.

A New City Park—This much needed and desirable adjunct to the city contemplates the laying out of a plat of ground now belonging to the city known as Horn's Hill. It is fully two miles north of the court house square. There is, with comparatively little expense, the possibility of making a water way extending one mile in length. The hill gives a fine view of the city, while groves, etc., would make it a lovely spot for a fresh air artery, when Utica has been annexed.

Of course there are still unoccupied acres of ground surrounding the city limits and yet, before Newark can rank with London, Paris and New York, she must have sky-scrapers. One ten-story building is now being constructed while others are embryotic. "Though groveling in the muck and mire, Mankind will reach for something higher."

You know that already \$50,000 has been appropriated by the National government for the erection of a government building here. When the site has been fixed that the building on its way to completion—the rule will hold good—the amount will be found inadequate and the government will be asked for about ninety thousand more to complete and equip the structure. About the time of the Ohio Centennial at Chillicothe General Grosvenor had secured an appropriation of \$72,000 for a public building for that city. The following year an additional \$20,000 was voted for its completion and later that was thought insufficient.

The building boom which for the past five years has been phenomenal, has, this summer, quieted down to a slower and possibly, more normal pace; nevertheless the reports indicate lively transactions in real estate.

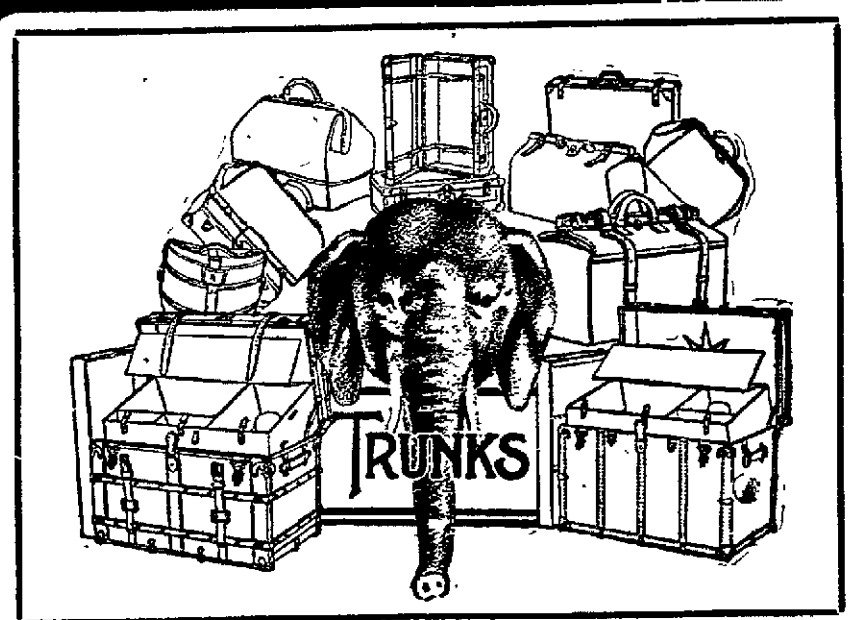

Politicians—those looking for nests and nest eggs, are wiping the sweat from their brows, shaking hands with everybody, kissing the babies and still the country moves along.
